

QUOTES ABOUT THE ART.ENGINE AUDIO SYSTEM

QUOTES FROM PRODUCT REVIEW BY BRENT BUTTERWORTH EDITOR-IN-CHIEF, HOME ENTERTAINMENT MAGAZINE

“The Art.Engine music system looks like a Ferrari engine block, but the sound is what gets your heart racing.” - Brent Butterworth, Editor-In-Chief, Home Entertainment Magazine

“One look at the Art.Engine and you know you’re confronting a music system like no other ever created.” - Brent Butterworth, Editor-In-Chief, Home Entertainment Magazine

“The engineers seem to have focused on wringing a natural timbre from the Art.Engine’s 18 drivers—and they have succeeded far beyond what I believed possible from such an unconventional design. I cannot think of a more realistic-sounding speaker than this one, save perhaps a few extremely high-end products from Goldmund and a few others. Vocals, especially, sound just right. I’m sure that rock-rigid, resonance-free aluminum enclosure contributes to this excellent performance.” - Brent Butterworth, Editor-In-Chief, Home Entertainment Magazine

“The bass sounds tight and well-defined. I hear loads of detail—percussion, in particular, sounds remarkable present and clear. But unlike many audio systems with exceptionally detailed sound, the Art.Engine always sounds smooth, never edgy or fatiguing.” - Brent Butterworth, Editor-In-Chief, Home Entertainment Magazine

“Important to what I perceive as the Art.Engine’s intended audience is that the system plays loud. Crank it up and it neither distorts nor changes timbre. I’m confident that it could fill a 10-car garage with party-level sound.” - Brent Butterworth, Editor-In-Chief, Home Entertainment Magazine

“The Art.Engine embodies what every high-end product should: dazzling looks, dependable performance, and a simplicity of design and operation that leave you pleased, not puzzling over an owner’s manual. They got this one right—it deserves to wear the Ferrari logo.” - Brent Butterworth, Editor-In-Chief, Home Entertainment Magazine

QUOTE FROM FERRARI

Giulio Zambelletti, Director of Brand Development Ferrari SpA, emphasizes Ferrari’s commitment to excellence: *“Any high end product licensed by Ferrari must have an uncompromising approach to quality, breakthrough technology, and ultimate performance. The Art.Engine encompasses them all.”*

“Beautiful design. Excellent quality. Great materials. It’s a Ferrari!” - Massimo Fumarola, Head of Product GT Car Development, Ferrari SpA
